

REG BIO-POWER

HEALTH AND SAFETY POLICY STATEMENT

It is the policy of REG Bio-Power to provide and maintain safe and healthy working conditions, equipment and systems of work for all of our employees and others who may be affected by our activities as far as is reasonably practicable. We will provide such relevant training, supervision and information in order to achieve our aim.

We fully accept our responsibilities as outlined in the Health and Safety at Work Act (1974) and the regulations made under the Act. We also recognise that these legal requirements represent the minimum level of achievement and that we will always endeavour to reach higher standards than those specified.

Health and Safety are the responsibility of management and they rank equally with all other Key Performance Indicators. Training will be provided as required in order to maintain the expected competency levels. When required, we will seek expert advice from a suitably competent body.

We recognise the vital contribution that excellent health and safety performance can make to the overall performance of our company by reducing injuries, protecting the environment and reducing unnecessary losses.

Health and Safety objectives are equally as important as other business objectives. Targets will be set to ensure that progressive improvements in health and safety are achieved. We will provide sufficient resources in order to achieve our health and safety objectives.

All employees will be informed and consulted regarding our legal duties as a business, their legal duties to themselves and others, and managerial and supervisory duties. Employees will be encouraged to participate in the making of policy as well as the implementation of the procedures themselves.

As a condition of employment, all employees will be required to observe safe working practices and co-operate with management in carrying out this policy.

Our Health and Safety policy and the health and safety management system will be reviewed annually and updated as necessary. Any revisions will be communicated to all of those people affected by the changes.

I Collins

Managing Director
