

## **REG BIO-POWER**

### **ENVIRONMENTAL POLICY STATEMENT**

**REG Bio-Power is involved in the following areas of business activity:**

- 1. Used Cooking Oil Collection**
- 2. Cooking Oil Storage and Refinement**
- 3. Power and Heat Generation**

**As a responsible member of the community, REG Bio-Power readily accepts the duty of planning and managing its business activities to ensure that the best practical environmental options are taken.**

**An Environmental Management System is in place, which requires the participation of all employees in the planned improvement of the company's environmental performance. The company will endeavour to inform the local community of the potential impact of their activities and the measures proposed to control such impact.**

**All business activities undertaken by REG Bio-Power will, as a minimum, achieve compliance with all relevant environmental legislation. Where practicable the company will establish standards which will exceed legislative and industry norms.**

**REG Bio-Power is committed to the prevention of pollution and the continual improvement of its performance by the sensible use of resources. The company will demonstrate sustainable development, the aim being to minimise the environmental impact of its activities by;**

- Raising employee awareness of policy and environmental issues through a programme of training which aims to motivate employees to conduct their operations in an environmentally responsible manner.**
- Regularly reviewing company policy and monitoring the company's environmental performance through a series of graded audits.**
- Using raw materials efficiently, promoting the use of recycled products and the efficient use of energy.**
- Purchasing, utilising and storing materials and substances in a manner which poses minimal risk to both individuals and the environment, as far as is practicable.**
- Reducing the amount of waste produced wherever practicable ensuring that such waste is recycled or disposed of with minimal impact on the environment.**

**This policy statement is available on request to all members of the public.**
